

how to steal like an outlaw:

even ROBIN HOOD
would be proud

In the 13th century, \$899 would have been a King's ransom in gold. In the 21st century, it's hardly enough to buy a fully-featured, high-performance 7.1 channel A/V receiver. That is, until today. Introducing the **Model 1070** from Outlaw Audio.

Powerful yet compact in size and loaded with useful features, including digital video switching, the thoughtfully designed Model 1070 delivers astounding audio performance at a price that will have our competitors calling for the Sheriff.

How do we deliver this incredible value without robbing the manor? We design our own products and offer them directly to you. Best

The best values in home theater
are just a mouse-click away.SM

of all, you can audition the Model 1070 for a thirty-day trial where it counts the most: in your own castle. At just **\$899**, it will make you feel like the Prince of Thieves.

Features Include:

- 7x65 WPC, 8 ohms, 20-20,000Hz, <0.08% THD, all channels driven
- Video Transcoding with OSD on component outputs
- DVI Switching (compatible with HDMI Video)
- Adjustable Lip-Sync Delay (200 mS)
- Upgradeable via RS-232
- Analog and Digital Bass Management on Direct Inputs
- Quadruple Crossover control
- Dolby Headphone

And much more...
